

Comprehensive UCaaS Valuation Report

SampleUCaaS Corp

Report Date: August 05, 2025

Executive Summary

ValuAI Recommendation: \$64,148,323 using DCF

Confidence Level: High

Justification:

Based on the quality and predictability of your financial data, the DCF provides the most robust valuation estimate of \$64,148,323. The company has consistent cash flows, stable growth patterns, and low volatility, making future projections reliable. Other methods showed significant variance, but DCF had the highest confidence score due to data quality factors.

Three Valuation Methods Analyzed
